story
☆Narumi Luna's bad expression and punk attire cause everyone from children to adults to fear her. Because of this, she's a homeless loner with zero friends. She was sure high school would be different but, she was wrong.
☆After a misunderstanding with a neighbor, Luna is kicked out of her apartment. With both her parents living overseas, Luna has nowhere to turn. Then HE shows up - the super-popular student council president, Natsushima Hikaru. It's decided that Luna will live with him and the other Prodigies. But they turn out to be a bunch of liars! Their "leader" is secretly a jerk who orders Luna to be his fake girlfriend!
